Mac OS X v10.4 "Tiger" Top 10 Features & Benefits

With more than 200 new features, Mac OS X 10.4 "Tiger" will change the way we use our computers. The world's most advanced operating system makes it even easier than ever for you to find manage and enjoy the stuff you care about.

Top 10 Features	Benefit
Spotlight	Locate documents, email, contacts, bookmarks, images, and even data inside PDF files, with pinpoint accuracy.
Dashboard	Get instant access to weather forecasts, stock quotes, airline flights, and more without visiting multiple websites.
iChat AV	Video conference with three other people at once, or audio conference with up to nine friends or colleagues.*
Automator	Easily automate complex and repetitive tasks—just point, click, drag, and drop (no programming required).
Mail	Organize messages with Spotlight, and enjoy photos more with new resizing, archiving, and slideshow options.
QuickTime 7	Enjoy incredible video quality with lower data rates and smoother playback than ever before.
.Mac Sync	Sync Safari bookmarks, iCal appointments, Address Book contacts, and Mail settings for all your Macs.**
VoiceOver	Get equal access to the power of the Mac with Apple's spoken interface technology for the visually impaired.
Safari RSS	Use Safari to view news headlines and article summaries from around the world.
Parental Controls	Oversee your children's email use, chatting, and web browsing with broader parental controls in Tiger.

A list of all 200 new features can be found at
www.apple.com/macosx/newfeatures

* iChat AV requires compatible video conferencing hardware.
** .Mac Sync requires .Mac membership and Internet service.
